^{1.} The internationally agreed tax standard, which was developed by the OECD in co-operation with non-OECD countries and which was endorsed by G20 Finance Ministers at their Berlin Meeting in 2004 and by the UN Committee of Experts on International Cooperation in Tax Matters at its October 2008 Meeting, requires exchange of information on request in all tax matters for the administration and enforcement of domestic tax law without regard to a domestic tax interest requirement or bank secrecy for tax purposes. It also provides for extensive safeguards to protect the confidentiality of the information exchanged.

3. These jurisdictions were identified in 2000 as meeting the tax haven criteria as described in the 1998 OECD report.

4. The Cayman Islands has enacted legislation that allows it to exchange information unilaterally and has identified 12 countries with which it is prepared to do so. This legislation is being reviewed by the OECD.

^{2.} Excluding the Special Administrative Regions, which have committed to implement the internationally agreed tax standard.

^{5.} Austria, Belgium, Luxembourg and Switzerland withdrew their reservations to Article 26 of the OECD Model Tax Convention. Belgium has already written to 48 countries to propose the conclusion of protocols to update Article 26 of their existing treaties. Austria, Luxembourg and Switzerland announced that they have started to write to their treaty partners to indicate that they are now willing to enter into renegotiations of their treaties to include the new Article 26.
