Subject Availability of short term export credits for Greece

Dear Commission,

We hereby would like to inform you of the situation on the availability of short term export credits for Greece, following your Public Consultation on this issue.

(b) Activity of insurers acting on behalf or with State guarantee or the State itself in provision of short-term credit insurance for exports to Greece in 2014: availability of credit insurance in all Member States, number of requests, acceptance ratio, total insured turnover, and average premium charged in Member States concerned.

So far, in 2014 there has been no provision of short-term credit export insurance by the State for exports to Greece.

Yours sincerely,

State Secretary for Finance of the Netherlands ,
Eric Wiebes
