B05 Life raft stowed at passenger seat not Open C02 LH door (pilot) hold open rod not properly Open M mm 52 installed. Class of actions taken **Actions Taken** 3d) immediate operating ban 3c) Aircraft grounded by inspecting NAA 3b) Corrective actions before flight Secured before flight 3a) Restriction on aircraft flight operation 2) information to Authority and Operator 1) information to Captain

## **Additional Information**

Special request for inspection, aircraft to be operated for SAR. Officially this operations in not performed under its AOC but under a contract with Rijkswaterstaat however the items checked during the Ramp Inspections are related to the CAT requirements and would also apply for CAT operations outside of the contract. Nevertheless this inspections should be seen as a special inspection and for which the BCAA is not the oversight authority in respect to the nature of the flight.
