## Board of Directors' report

For the year ended March 31, 2015

---

The Dutch Venture Initiative SICAR S.A. ("DVI" or "the Company") was incorporated on August 7, 2013 as a risk capital investment company (*Société d'Investissement en Capital à Risque*) established as a public limited liability company (*Société Anonyme*) subject to the Luxembourg 15 June 2004 Act on SICAR. The Company was approved by the Luxembourgish financial sector supervision authority, the *Commission de Surveillance du Secteur Financier* ("CSSF") and entered on the official list of SICARs with effect as of August 7, 2013. The first closing took place at EUR 150m on August 12, 2013 with PPM Oost and EIF committing EUR 100m each but EIF's commitment being capped at one third of the total fund size (i.e. EUR 50m at the first closing size). The subscription period remained open for 18 months following the first closing date, and on December 10, 2014 the Brabantse Ontwikkelings Maatschappij B.V. via Innovatiefonds Brabant B.V., announced its entry into the capital of DVI with EUR 5m, bringing the total commitments into DVI to EUR 157.5m as it also released another EUR 2.5m in commitments from EIF.

In the year ended March 31, 2015, DVI maintained its good investment pace from the previous year, the Investment Committee approving five fund investments (incl. an additional investment in an existing DVI portfolio fund) for a total amount of EUR 69m resulting in commitments of EUR 27m in two funds (EUR 12m in Life Science Partners V, EUR 15m in Gilde Healthcare Services II). Since March 31, 2015 the Company has committed another EUR 10m into Prime Ventures IV, and is currently negotiating a signature with two other funds. A EUR 5m approval in the prior fiscal year for a DVI fund investment did not lead to a signature and was abandoned due to lack of fundraising traction. Additionally, the DVI Investment Committee approved a EUR 45m investment in EAF Netherlands, a fund which promotes co-investment schemes with business angels and non-institutional investors with a focus on the Netherlands, to be set up as part of the European Angel Fund S.C.A. SICAR (EAF) – this approval being conditional on a EUR 30m increase in DVI commitments by PPM Oost (which would in addition lead to a release of another EUR 15m of EIF's commitment). At the end of March 2015 eight of the funds in which DVI has participated are fully operational whereas conditional commitments have been signed with two other funds. The eight operational funds have since DVI's inception invested in 15 Dutch companies for a total aggregated invested amount of EUR 54.6m. The first successes in DVI's underlying portfolio were announced such as the exit of Dutch-based Sapiens (sold to Medtronic for EUR 153m), the exit of Definiens (acquired by MedImmune for an initial cash consideration of USD 150m plus milestone-based deferred payments) and the USD 98m IPO of ProQR.

The Company can look back on a dynamic investment activity since inception less than 2 years ago and is expected to complete its investment programme during the 2015 calendar year. DVI has had important incremental and catalytic effects as it allowed EIF, via DVI and other mandates it is advising or managing, to invest larger amounts and also to catalyse additional capital from other investors towards funds active on the Dutch market. As the investment activity across these funds reaches its operational capacity, DVI is able to demonstrate successfully its role to strengthen the capital base of Dutch innovative SMEs.
